Dear Sir:

INTERVIEW SUMMARY

A brief telephone interview was conducted on September 21, 2006, regarding the status of the application. It was agreed between Applicant's undersigned attorney and Examiner Felten that, due to the ambiguity in the outstanding office action dated March 23, 2006 regarding its finality, and its subsequent treatment by the Office as a non-final Action, that the Action would be considered non-final for all purposes. Therefore, Examiner Felten agreed to consider the application in due course, based on the arguments presently of record, without risk of abandonment due to Statutory Bar.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read "Steven M. Hoffberg", is written over a light gray circular stamp.
